Work

Aug 2026 — Present
ProjectOne
Framer Expert Developer
Chilliwack, BC, Canada

- Built approved designs in Framer as polished, responsive, production-ready pages
- Used AI-assisted development for faster builds, custom interactions and problem-solving
- Ongoing updates, responsive refinements and functionality improvements

Jun 2025 — Present
KHULA Studio
Webflow & Framer Developer
Canada | Remote

- Build and maintain responsive, production-ready Webflow and Framer websites for international clients across industries, working with designers, project managers and stakeholders on launches, redesigns and Framer migrations
- Translate Figma designs into reusable components, structured CMS collections and scalable design systems
- Build custom animations and interactions with GSAP, JavaScript and platform-native interactions
- Implement technical SEO, JSON-LD structured data, accessibility and performance optimizations
- Diagnosed a slow Framer page with Claude Code: two SVG avatars hid 1.3 MB photos. Swapped in 192px JPEGs, cutting 2.6 MB; desktop Lighthouse rose from 90 to 98 on before/after runs
